

Nino - Hell

He became a god to save the world from alien armadas in **THE ANOMALY**. He won the war for Earth.

Now, in **HELL**, his battle turns inward. The enemy is no longer in the stars, but in the very soul of humanity—a spiritual plague of apathy and despair. To save mankind from itself, Nino must descend into a conceptual abyss, not to destroy it, but to heal it from within.

But if a man can unmake Hell, what awaits him in the celestial kingdom? The journey does not end in the darkness; it continues in **HEAVEN**.

THE WAR FOR THE BODY IS OVER. THE WAR
FOR THE SOUL HAS JUST BEGUN.

The Author Bio

By day, Jesus Guzman navigates the complex logic of digital strategy. By night, he builds universes. A lifelong storyteller, he pulls from a deep well of philosophy, science, and theology to craft epic narratives that question the very nature of reality. *Nino – The Anomaly* is his debut novel, the first chapter in a saga that asks what it truly means to be human in a cosmos far stranger than we can imagine.
